Shamim Alam

Backend / Full Stack Engineer

alamshamim860@gmail.com | +91 6207788623 | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Backend-focused Full Stack Engineer with 1.5+ years of professional experience building secure, scalable RESTful APIs and web applications using Node.js, Express.js, and MongoDB. Delivered "Whizz," a test platform handling 1000+ concurrent users with 99.9% uptime. Strong focus on performance, security (JWT/OAuth), and maintainable code. Hands-on with C#, .NET Core, Docker, and cloud deployment through academic and personal projects since 2020.

TECHNICAL SKILLS

- **Backend:** C#, .NET Core, Node.js, Express.js, RESTful API Design, Python
- **Cloud & DevOps:** Docker, Kubernetes, Helm, Azure, GCP, CI/CD, GitOps, Terraform (Infrastructure as Code)
- **Testing:** Unit Testing, Integration Testing, Automated Testing, Postman API Testing
- **Practices:** SOLID Principles, Design Patterns, Agile (Scrum, Kanban), Monitoring, Logging, Performance Tuning
- **Database & Security:** MongoDB, JWT, OAuth, Role-Based Access Control (RBAC), Web Security
- **Frontend:** React.js, JavaScript, HTML, CSS, Tailwind CSS, GSAP
- **Tools:** Git, GitHub, Postman

WORK EXPERIENCE

Software Engineer | EIFM, Abu Dhabi | *April 2025 - April 2026*

- Designed and built RESTful APIs for a MERN-based HRMS covering employee management, attendance tracking, and HR operations, with secure authentication and RBAC
- Optimized database queries and API performance, improving application scalability and security
- Developed scalable frontend and backend features for The Gypsy Adventure platform using React.js and Node.js
- Built and maintained the official company website for HL Tech, improving performance and responsiveness

Full Stack Developer | CodSoft, Bangalore | *June 2024 - April 2025*

- Built backend services for "Whizz," an online quiz and test platform, using Node.js and MongoDB, supporting 1000+ concurrent users with 99.9% uptime
- Implemented JWT authentication, role-based access control, and third-party API integrations
- Optimized database queries to improve performance, reliability, and data handling
- Tested and debugged APIs using Postman; developed responsive UI for the official Sheryians website

PROJECTS

HRMS Dashboard | MERN Stack | GitHub

- Developed an HRMS dashboard automating HR processes, with role-based access, secure authentication, and an admin panel

The Gypsy Adventure | MERN Stack | GitHub

- Built a travel booking platform with backend APIs for tour packages, bookings, and user data, and secure user authentication

CodSoft Learning Platform | Node.js, React.js | GitHub

- Developed a full-stack educational platform with RESTful APIs, secure authentication, and a dashboard to manage courses and students

EIFM Official Website | React.js | GitHub

- Developed the company website with responsive UI, component-based architecture, and optimized performance

Zibru Pet Shop | React.js | GitHub

- Built a responsive e-commerce frontend with dynamic product listing and reusable components

Crypto Tracker | React.js, Tailwind CSS | GitHub

- Built a responsive crypto tracker with animated components and smooth transitions

EDUCATION

Bachelor of Technology (B.Tech), Computer Science Engineering | *2020 - 2024*
Sagar Institute of Research, Technology & Science, Bhopal
Higher Secondary (12th), Gulab Memorial College, 2018 | Secondary (10th), Amna Urdu School, 2016

CERTIFICATIONS

- Full Stack Web Development - Sheryians Coding School
- Python Certification - Sheryians Coding School
